FINANCIAL AND COMMERCIAL.

SATURDAY, Aug. 9. Atthough the Stock Exchange was closed day in honor of the coronation of King dward of England, the local banks and financial institutions transacted business as usual. The statement of averages of Associated Banks showed an increase in loans of \$6,823,200, or about equal to the increase of last week, and the cash decreased \$4,082,500, or about \$3,000,000 more than was indicated by the known movements of money this week. The only explanation of this showing of the cash is the assumption that the statement corects last week's exhibit, when a decrease in cash of only \$502,200 was given, in the face of a known loss of \$2,410,656, as indiated by the figures presented by the banks individually. The net result of the stateent is a decrease in the surplus reserve of \$4,708,875, bringing the total of that tem down to \$9,032,000, compared with \$20,952,900 a year ago and \$28,125,950 the

previous year.

The latest feature of the local monetary situation has been unusually heavy cusoms collections on account of the large imports at this centre. These collections and the gold exports in the last two weeks aused the balance to turn heavily against the local banks, notwithstanding a large inflow of cash from the interior and payments to a fairly considerable extent for gold deposited at Pacific Coast points. To-day the Sub-Treasury was debtor at the Clearing House for \$487,217, chiefly on account of pensions, which, as noted in this olumn recently, will begin to show a deided increase next week. Last year the movement of money from New York to the terior for crop-moving purposes did not each large proportions until the weeks ending Aug. 25 and Sept. 5. In the interval before heavy demands are made this year, the main dependence of the banks the replenishment of their resources will be upon the receipts of domestic gold.

It may be noted, however, that the supolies of money at all of the principal disributing centres in the interior are larger han at this time a year ago, on account of the increases in the deposits of Govroment funds in the smaller banks in he West, South and Southwest, and it s alleged that a fairly considerable amount of the money that was used in the manipuation of the corn market has been retained in the West. The foreign exchange market continues to show an advancing endency, and at the moment the sole barper to a resumption of gold exports from this country is the high rate of sterling Paris. The rate was further advanced o-day 1 centime, to 25 f. 20c.

The Produce Exchange was the only exchange that was open for business in this city, and grain prices, both here and at Chicago, reflected, in a further decline, the extremely favorable crop prospects. particularly for corn. These optimistic forecasts are indorsed by all of the grain experts of international reputation, inluding Prime, President J. J. Hill of the Great Northern, and Snow, the statistician. The last-mentioned authority, as was stated during the week, estimates a total yield of corn of 2,600 million bushels, as compared with an actual yield last year of about 1,200 million bushels. His estimate of the aggregate wheat outturn is 775 million oushels. Both the spring and winter wheat crops are made and winter wheat

Next week cutting of spring wheat is expected to be begun in the lower tier of counties in Minnesota, and by the end of next week in the lower counties in the Dakotas. The conditions described were 3 cents a bushel in wheat and of 5 to 6 cents a bushel in corn. At the lower levels foreign buyers are showing alertness in picking up cheap cereals. Yesterday the export takings amounted to seventy-five ada of wheat equal to about 600 000 bushels, and in addition thirty loads of corn were engaged, equal to about 150,000 whether continued weakness in wheat may not check the movement from the

shows an increasing movement.

Last year, although the corn-crop yield volume of general business not only prevented any appreciable falling off in rail- | Prices as follows: way earnings, but caused continued increase up to this time. Taking the Illinois tentral as an illustration, that road, which s quite a large corn carrier, has been earning about twice the amount of the dividend equirement. The effect upon railroad returns of a corn crop of double the dimensions of last year's yield, if the estimates are borne out, and with no abatement of the activity in general trade can be readily imagined, and explains to an extent the enhusiasm of the Western operators on the ong side of stocks and particularly the Granger shares.

FINANCIAL. WALL STREET.

SATURDAY, Aug. 9, 1902.
In spite of the ceaseless press attacks the stock market continued its undisturbed dignity of quiet strength during the week past, and to an experienced observer no market of recent years has ever appeared under such absolute control of the most

powerful interests in the Street

powerful interests in the Street. Every commission house complains of lack of business, and whatever few speculative accounts the brokers were carrying on margin up to two weeks ago were mostly sold out Monday and Tuesday, July 28 and 29. The present millionaire owners of stocks are perfectly satisfied with their holdings and are steadily adding to same, aided by bearish literature here and especially in London. For obvious purposes the real powers still need stocks, and they are therefore strenuously opposing any wildcat speculation in any part of the market, but, on the contrary, as soon as any stock or group of contrary, as soon as any stock or group of stocks shows any signs of too much upward rush, the movement is checked and no undesirable plunging or pyramiding is being permitted. The serious wealthy men undesirable plinging or pyramiding is being permitted. The serious wealthy men of Wall Street have under perfection such important vast deals, that no reckless specu-lators will be permitted to create condi-tions that might in any way upset or even interfere with carefully laid plans. By reckless speculators we do not refer to the nervy, brainy, wealthy Western men-who are working hand in hand with the the nervy, brainy, wealthy Western men-who are working hand in hand with the most powerful bankers of New York, Chi-cago, Pittsburg and St. Louis—we mean the margin gamblers and pyramid plungers who last year infested Wall Street. They are now shuffled aside at every opportunity. The wonderful strength of the market in spite of its dullness is only accounted for by the continuous steady absorption for by the continuous steady absorption for cash of all the floating supply of stocks. It is all being done by master minds in a way so as to deceive the uninitiated, and really this is the only way such work can be done. As we once remarked in this column. the selection of competent generals is probably Mr. Morgan's hardest problem. The ingenious stories of fights work wonder-The ingenious stories of fights work wonderfully well, but we are living in an age which is trying to abolish fights of every kind, and the wealthy men of to-day are too shrewd to indulge in fights or even grudges. Close alliances and reduction of cost is the great end in view, and as soon as the great railroad deals are perfected, the industrials will receive similar attention. The one excellent feature now is the low prices at which these industrial stocks are selling. at which these industrial stocks are selling compared to a few years ago, owing to the compared to a few years ago, owing to the ill-repute in which they have been held. Their managers have been compelled to economize and finance with their own resources, as money lenders as a rule held aloof from rendering the new industrials any assistance. This has added to the situation much needed strength, and signs are multiplying that many of these corporations in spite of hard knocks are now about to revive. Those that have been most tions in spite of hard knocks are now about to revive. Those that have been most conservatively managed, like American Car and Foundry and Pressed Steel Car, will probably first find favor, and both these companies are doing a colossal business and might in time become twin brothers of the great Pullman company. Tennessee Coal and Iron and Hocking Coal and Iron have a magnificent business outlook for have a magnificent business outlook for two years at least. The National Lead Company we hear is doing very well, and the United States Steel Corporation is a conern of giant proportions in a giant republic with giants behind it, who better under-stand its standing and possibilities than the vast army of narrow-minded bears who sell the securities short as a protection against other long commitments. Upon careful inquiry we find that this sort of hedging amounts to an appalling total. In other words, there exists a short interest in United States Steet stocks of proportions enough to create a hear stampeds any hosto create a bear stampede any mo-ment regardless of the undisputably great strength of the corporation itself. The American Sugar Company's earnings, we are told are fabulous. Steamers by the score are now bound for Delaware Breakwater for orders of this company. When the railroad deals now under way are being announced, it will be found that one indusannounced, it will be found that one industrial concern after another is hand in hand with the consolidation, and as these alliances become gradually better understood the stock market will broaden and rise. The Goulds and Vanderbilts will lead the market, Atchison will become the bear graveyard of 1902, and St. Paul will gradually disappear. Whether Union and Southern Pacific, for reasons best known to haut-finance, will be left out of the great deals now under way is a matter which deeply concerns only those interested in these concerns only those interested in these two stocks. If we were arranging the deals we would know what to do. Those who are arranging them know a great NETSRAC EOB.

UNION PACIFIC RAILROAD COMPANY

OFFERING OF OREGON SHORT LINE FOUR PER CENT. AND PARTICIPATING TWENTY-FIVE YEAR GOLD BONDS.

> 120 BROADWAY, NEW YORK, JULY 18, 1902

To the Holders of Preferred and Common Stock of the Union Pacific Railroad Company:

The Oregon Short Line Railroad Company has created an issue of FOUR PER CENT. AND PAR-FICIPATING TWENTY-FIVE-YEAR GOLD BONDS, to be secured by the pledge and deposit with The Equitable Trust Company of New York, as Trustee, subject to the provisions of a trust indenture, of ten shares of the stock of the Northern Securities Company for every \$1,000 face value of bonds issued. These bonds carry interest at four per cent. per annum, payable semi-annually in February and August, and are also entitled for each year, beginning with the year 1903, as provided in the trust indenture, to an amount equal to any dividends and interest which may be paid in cash during the year upon the deposited collateral in excess of four per cent, upon the amount of the outstanding bonds. All or any of the bonds may be redeemed, at the option of the Short Line Company, at a premium of two and one-half per cent, and accrued interest and dividend payments on any interest day upon at least three months' published notice. In case part of the bonds are redeemed, those to be redeemed are to be chosen by lot. Both the principal and interest will be payable in gold without deduction for taxes. The bonds will be coupon bonds of \$1,000 each with the usual provisions for registration and exchange for fully registered bonds. For the terms and provisions of the bonds and of the trust indenture under which they are to be issued

eference is made to the copies of those instruments on file at the office of the undersigned in New York.

Pursuant to action of the Board of Directors of the Union Pacific Railroad Company, which has acquired the bonds hereby offered, holders of its preferred and common stock of record at the closing of the transfer books on August 1, 1902, are offered the privilege of subscribing at 90 and accrued interest for a face amount of said bonds equal to fifteen per cent. of the par amount

Arrangements have been completed for the sale, upon the terms of this circular, of so many of \$31,000,000 of said bonds as are not subscribed for by the stockholders of the Union Pacific Railroad Com

pany upon this offering.

No subscription for a fraction of a bond will be received, but as rights to subscribe may be as signed in accordance with a blank form which will be furnished upon application at the Company's office in New York, any holder of such an amount of stock that fifteen per cent. of the par value thereof will not be \$1,000 or a multiple thereof, may, before subscribing, buy or sell subscription rights upon the open market for such an amount as may be necessary for the purpose. Subscriptions must be made after August 1st and before 3 o'clock P. M. on August 15, 1902.

at the office of the Company, 120 Broadway, New York, where blanks will be furnished upon which subscriptions must be made.

Payments on account of subscriptions must be made at the office of the Company in New York in instalments and on dates as follows:

\$450 per bond upon subscription;

\$453.33 (the accrued interest adjustment being included) on or before September 15, 1902. Any subscriber may pay his subscription in full at time of subscription, in which case he will be allowed a discount on the anticipated payment of \$1.86 per bond (which is at the rate of four per cent. per annum), and will be entitled to full-paid subscription certificates.

Failure to pay any subscription instalment, when and as payable, will forfeit all rights in respect of he bond subscribed for and any instalments previously paid. Subscriptions upon the forms furnished by the Company accompanied by cheques on New York to the order of the Union Pacific Railroad Company for the first instalment of \$450 per bond (or for \$901.67 in case the subscription is paid in full) must in all cases be in the hands of F. V. S. Crosby, Treasurer, at the office of the Company, 120 Broadway, New York, before three o'clock P. M. on August 15, 1902, when the right to subscribe will terminate. The subscrip-

Bonds with coupons attached or interim certificates representing bonds will be deliverable on and after September 15, 1902, upon surrender of subscription certificates at the Company's office, with the payments of all instalments receipted thereon

By order of the Board of Directors ALEX. MILLAR, Secretary.

TO THE HOLDERS OF THE STOCKS AND BONDS OF THE

Distilling Company of America AND THE BONDS OF THE

American Spirits Manufacturing Company. More than two-thirds of the Preferred Stock of the Distilling Company of America having been deposited with The Mercantile Trust Company inder the plan for the conversion of the securities
of The Distilling Company of America, the said tilling Company of America, the said plan is declared operative.

Holders who have not deposited their securities may become parties to the plan by making such deposit on or before Friday, August fifteenth, RUDULPH ELLIS.
